ABOUT

Experienced tech leader with 10+ years in full-stack development and 5+ years managing distributed teams. Proven track record of building scalable web applications, mentoring developers, and delivering complex projects from concept to production. Expert in modern web technologies with strong focus on clean architecture and team growth.

LEADERSHIP EXPERIENCE *visit my [LinkedIn](#) profile for the full version*

Tech Leader at 123Code Studio

August 2019 - December 2024 (5+ years)

- **Leadership:** Built and managed multiple distributed teams, each comprising 3-6 developers, QA specialists, and designers across multiple time zones.
- **Mentorship:** Recruited and developed technical talent, creating growth opportunities and maintaining high team retention.
- **Architecture:** Championed clean code principles, DRY methodologies, and implemented BDD with Gherkin specifications.

Lead Frontend Developer at CommPeak

November 2017 - March 2019

- Hired and mentored junior developer, establishing structured learning paths.
- Created a company-wide UI Kit library with documentation, used across all products.
- Led UI rebuild of legacy Rails application from jQuery/ES5 to modern stack.

Lead WordPress Developer at OpenWeb

January 2016 - June 2016

- Created 4 websites using WordPress Multisite with parent/child themes architecture.
- Developed certified WordPress VIP plugin and managed product technical documentation.
- Managed distributed freelance teams across multiple time zones.

Team Leader at Netvertise

October 2013 - May 2014

- Managed team of 8 members (3 Backend, 2 Frontend, 2 QA) using Agile/Scrum methodology.
- Led complete rebuild of SaaS product from Zend/ExtJS to Symfony2/AngularJS architecture.
- Successfully delivered a new product and managed transition to the international team.
